

Dear Valued Patients:

Over the past year, Ohio County Healthcare (OCH) has contracted with Owensboro Health to provide weekly urology services for our patients. We have recently received notification that Owensboro Health will be discontinuing this service effective June 10th, 2023. We are deeply appreciative of the urological care provided to our community by Corey Johnson, MD and Meghan Fares, APRN. They have both been an asset to the OCH medical team.

It is our vision to provide Outstanding Care Here during times of medical staff transition. OCH is currently working on both short-term and long-term urology recruitment efforts to provide coverage for the community. You will be contacted once those arrangements are in place in order for you to continue to receive care close to home.

Unless notified otherwise, we regret to inform you we will not be able to honor any clinic visits or surgeries scheduled after June 9th. Below are two regional offices within our area you can call for an appointment to continue your urology care.
